

VOCALIZE!

WHEELCHAIR BLUETOOTH CELL PHONE VOICE CONTROL SYSTEM PLUS VOICE CONTROL DIGITAL MEDIA PLAYER

Always available voice controlled calling & digital entertainment without pressing any buttons or even having to see the phone! Easily and inconspicuously mounts on wheelchair and communicates with cell phone wirelessly using Bluetooth protocol just like a Bluetooth headset.

Completely Voice Controlled, truly hands-free, power wheelchair integrated:

Cell Phone Bluetooth Speakerphone

Call Contacts, Digit Dial, Answer, and Hangup all by voice

Digital Media Player (like Apple iPod™ & Microsoft Zune™)

Listen to music, audio books, even watch movies all by voice**

Call for help anywhere, anytime when it's really needed most! Includes Bed Kit to extend usage to 24 hours/day. Even works during power outages.

Worldwide Compatibility - Works with any cell phone service provider! Communicates with cell phone wirelessly over Bluetooth protocol.*

Easy to Use - Natural voice prompts, intelligently responds and asks when it does not understand!**

Powerful - Supports any language or individuals who cannot speak clearly, only consistently. Up to 2000 voice controlled contacts without training voiceprints for each**

Convenient - Always available without wearing uncomfortable headset all day or having it fall off

Versatile - Optional wired headset privacy mode, and answer, hang up, start voice control, and more with included accessible push-button control

No need to see or touch phone. Great for those with vision impairments or blindness or even to safely answer and place calls while driving with hand controls! Announces incoming Caller ID, appointment reminders, and reads incoming text and e-mail messages.**

Wheelchair Integrated - Mounts inconspicuously under wheelchair seat so it's virtually unnoticeable yet always available without interfering with transfers. Runs directly off power wheelchair batteries so there's nothing to forget to plug in, simply recharge wheelchair normally. Optional wheelchair charging port or lithium-ion battery pack also available for easier installation or manual wheelchair users.

Flex Wheelchair Headrest
Microphone swings for transfers
