

VOICEIR

ENVIRONMENTAL CONTROL SYSTEM'S
INFRARED VOICE CONTROLLER

Voice Control Your World! Independence, Security, Entertainment, & Communications using only your voice for Complete Environmental Control! Provides superior voice control quality, more voice commands, do-it-yourself simplicity & ease-of-use, with greater reliability over alternative \$10,000 Environmental Control Units (ECU) for 5% of the cost!

Voice Control your TV, DVD, TiVo, Stereo, ANYTHING with an infrared remote without reading directions or finding quickly outdated codes! Learns from your original remote, simply talking you through the process. Order now and earn \$50-\$100 rebate!

- Options & Accessories to control lights, electric bed, landline telephone, cell phone, thermostat, air-conditioner, space heater, ceiling fan, power door opener, and much more. Only purchase what you need.

FEATURES

- Excellent voice-recognition quality
- Intelligent Voice Guide - interactive, user-friendly voice guide intuitively instructs you what to do during setup and use.
- Support for 1-4 users and up to 120 voice commands [4 'voice command groups' with 30 voice commands per group]
- Smart Infrared Learning - No need to try infrared codes, easy to copy infrared signals for everyone, convenient to mix and cascade signals from different remote controls.
- Omni-Directional Infrared Emission - Circular spread powerful infrared emission beams leave no dead spots in a room.
- Magic keyword operation providing completely hands-free/button-free operation by simply saying what you want
- Auto Mute - Lets the pronounced voice command be easily recognized by temporarily muting the sound produced by audio/video equipment.
- Macros with sequence of up to 10 individual IR signals per voice command supporting delay in search and between signals
- Convenient Extender Handset - optional single button to activate VoiceIR manually plus manual operation of volume control and channel browsing.
